HOW WE DO OUR STEAKS blue medium rare medium

medium well

well done

The preparation of the meat is season with nothing more than salt. It may sound simple, but grilling the beef well is a skill. Blue and Rare steak will take longer on the grill than others steaks as it needs to be on low heat to warm the center without cooking through. Also big steaks will take longer to cook as it need to be cook through without burning the outside area. Please allow around 30 minute as standard time for your steak to be ready.
